

Halloween Banner

print, clip, assemble & display

You will need:

- 1) 4 sheets of white or light-colored cardstock
- 2) 7 segments of ribbon (3 pairs, 1 for the middle) about 16" long and thin enough to thread through the hole of a hole punch.
- 3) a hole punch (small hole)
- 4) scissors
- 5) a long ribbon, string or wire, to act like a clothesline (optional)

Assembly Directions:

①

From a home inkjet printer or color laser printer, print pages 2–5 of this PDF file on 8.5X11" cardstock.

②

Cut out designs. You can leave them as-is or go the extra mile, adding glitter or pom-poms.

③

Using a hole punch, make a hole about 1/4" away from the top center of each circle.

④

Cut ribbon to desired lengths. Steps 5 thru 8 explain how to attach it to the circles.

⑤

Thread both ends of a piece of ribbon through a circle (from behind).

⑥

Pull through the hole to the front side of the paper circle.

⑦

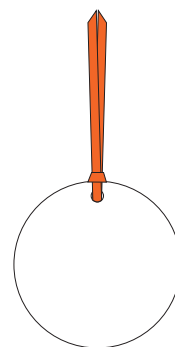

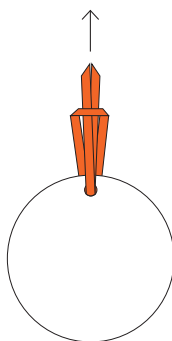

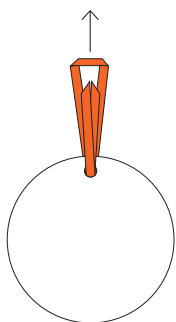

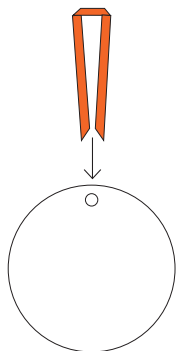

Follow back through the top loop of the ribbon.

⑧

Pull until loop is snug against the bottom.

⑨

Tie the top portion of the ribbon to its desired place on the long string, to hang like a clothesline. You can make a bow or a simple tie. Each piece can also be hung individually, tied to a stair railing or hooks on a mantelpiece. Be creative.
