

GARBAGE

CARD GAME

CARDS

2 PLAYERS = 1 DECK OF CARDS

3 - 4 PLAYERS = 2 DECKS OF CARDS

5+ PLAYERS = AT LEAST 3 DECKS OF CARDS

THE DEAL

Deal 10 cards facing down to each player. Do not look at or pick up cards. After cards are dealt, players keep their cards face down and arrange them in 2 rows of 5 cards.

Place the remaining cards in the center of the table for the stockpile.

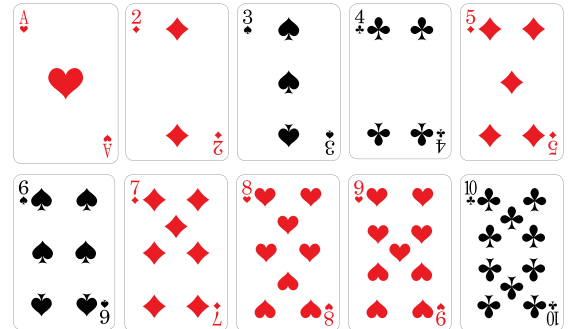

CARD VALUES

Aces - Count as 1 and go in the first place of the row.

2-10 count as their face value.

Jacks are wild and can be any card, ace through 10.

Kings and Queens automatically end a player's turn.

HOW TO PLAY

The player to the left of the dealer goes first by drawing the top card from the stockpile. If the player draws an Ace through 10, the player places it in its correct location in the layout. The player must remove the face-down card and turn it face up. This card, in turn, is placed in its appropriate location, if available, displacing the face-down card that was there. Play until you find a card that cannot be placed.

When a player can no longer make a move, that player discards into the discard pile and ends his turn. The next player to the left can either take the top discard or draw the top card on the stockpile.

Kings and Queens are unplayable cards and they automatically end the player's turn.

Play a Jack in any position, because it is wild. If a Jack is placed in the 3rd position, for instance, and the player draws a 3, the Jack can be removed and played somewhere else.

If the stockpile runs out, remove the top card and shuffle the remaining cards in the discard pile to create a new draw pile.

WINNING

The first player to line up their cards in sequence, starting with the Ace and ending with the 10 wins the round.

In this next round, the cards are reshuffled and dealt again.

The winner of the previous round, and whoever was able to complete their layout in that next turn, is dealt one less card than the round before. The other players receive the same number of cards they had in the previous round.

Rounds continue until a player is down to one card in the layout. They must fill that spot with an Ace or wildcard. If they do so and they say "Garbage," this ends the entire game.
